SmartBorder ISF

As part of the U.S. Customs and Border Protection ongoing efforts to improve security and transparency, importers and carriers bringing cargo into the U.S. on maritime vessels will now have to provide additional data to U.S. Customs.

Find out how SmartBorder's ISF ("10+2") solution can have your organization filing ISF quickly, easily and cost effectively.

Our Technology Solution

SmartBorder ISF is a SaaS application that is the ideal solution for any organization required to file additional data elements under the ISF Customs (CBP) rules. SmartBorder's Intuitive software allows cataloguing for vendors and parts with customizable EDI messages both in and out of our system making SmartBorder ISF one of the most flexible software options out there.

How You'll Benefit

- **Save time.** Have your suppliers enter information for you directly into the application.
- **Improve compliance.** Built in validations and system checks between the ISF and entry information helps ensure ongoing compliance and uniformity.
- **You are in control.** Robust security profiles allow you to configure who can have access to what information - Keeping your critical information confidential and secure.

 - Importer of record number / FTZ (Free Trade Zone) applicant identification number
 - Consignee number(s)
 - Country of origin
 - Commodity HTSUS number (up to the 6 digit level required, 10 is accepted)
- Portal customization allows for streamlined procedures for each SmartBorder account
- User/entity permissions allow for the creation of client user accounts
- Client users can enter data and process ISFs maintaining security over your data
- Data validations - prevent rejects and transmission errors
- Robust EDI integration options populate a complete or partial ISF

About SmartBorder

SmartBorder is a powerful, SaaS ("Software-as-a-Service," also known as ASP) application that does one thing and does it better than any other solution on the market - it facilitates time-saving, Customs-compliant importation of goods into Canada and the United States.

Smart Border ISF is ideal for Self-filing importers, their service center or an authorize party as they can input ISF data directly into SmartBorder's online web portal. Customs Brokers and Freight Forwarders can use our ISF service center module and its established links to our flagship ABI application.
