Our Technology Solution

SmartBorder's SaaS-based ACE application allowing you to handle the additional workload of meeting CBP's stringent new requirements, efficiently and cost-effectively without additional resources or significant expenditure. And it's all backed by our industry-leading training and support, 24 hours a day, 7 days a week.

Key Features of SmartBorder ACE e-Manifest

- Intuitive and easy to use
- Numerous data validation and accuracy checks
- Minimal internal IT support or investment
- Eliminate redundant keying for recurring data
- Offer real-time tracking of manifest submissions
- Increase synergy with multiple outside brokers
- Offers partial or full EDI integration
- Generates efficiencies across multiple offices, locations and carrier codes

How You'll Benefit

- Save time. With our "pick and click" feature you can set up SmartBorder with all the necessary information prior to creating any trips, and reuse that data as needed.
- Get it right the first time. With hundreds of data checks, more keying errors are caught before information is ever sent to Customs and Border Protection (CBP).
- Instant notifications. With real-time feeds, you get immediate views of the status of a current trip or shipment without having to navigate through several cumbersome screens.
- Stay current. With our cutting-edge technology, you'll always have the latest version of SmartBorder ever time you log on.

About SmartBorder

SmartBorder is a powerful, SaaS (also known as ASP) application that does one thing and does it better than any other solution on the market - it facilitates time-saving, Customs-compliant importation of goods into the United States.

SmartBorder doesn't just meet the filing requirements, but provides additional benefits to your cross-border shipping process.
